**Back cover blurb:**

*If he can find her, he can have her...all of her.*

Maxim Cross has everything a man could want—money, fast cars, and women at his disposal. What more could he ask for?

Then he sees the one woman that got away splashed all over the cover of a tabloid, in the throes of a passionate threesome, and he decides Elisa must be his...in every way.

There's only one problem. Elisa is hiding...and she's traded up men for sex toys.

As the daughter of a famous soap actor, Elisa's always been under the scrutiny of the public eye and she's always hated it. Embarrassed and ruined, she secludes herself in an isolated cabin in Aspen. She's determined never to show her face or trust a man again. Then Maxim shows up, just as determined to seduce her.

If Maxim wants her, he's going to have to play her way.

There's never been a more titillating game of *Hide and Seek*!
